GENERAL
CATALOG

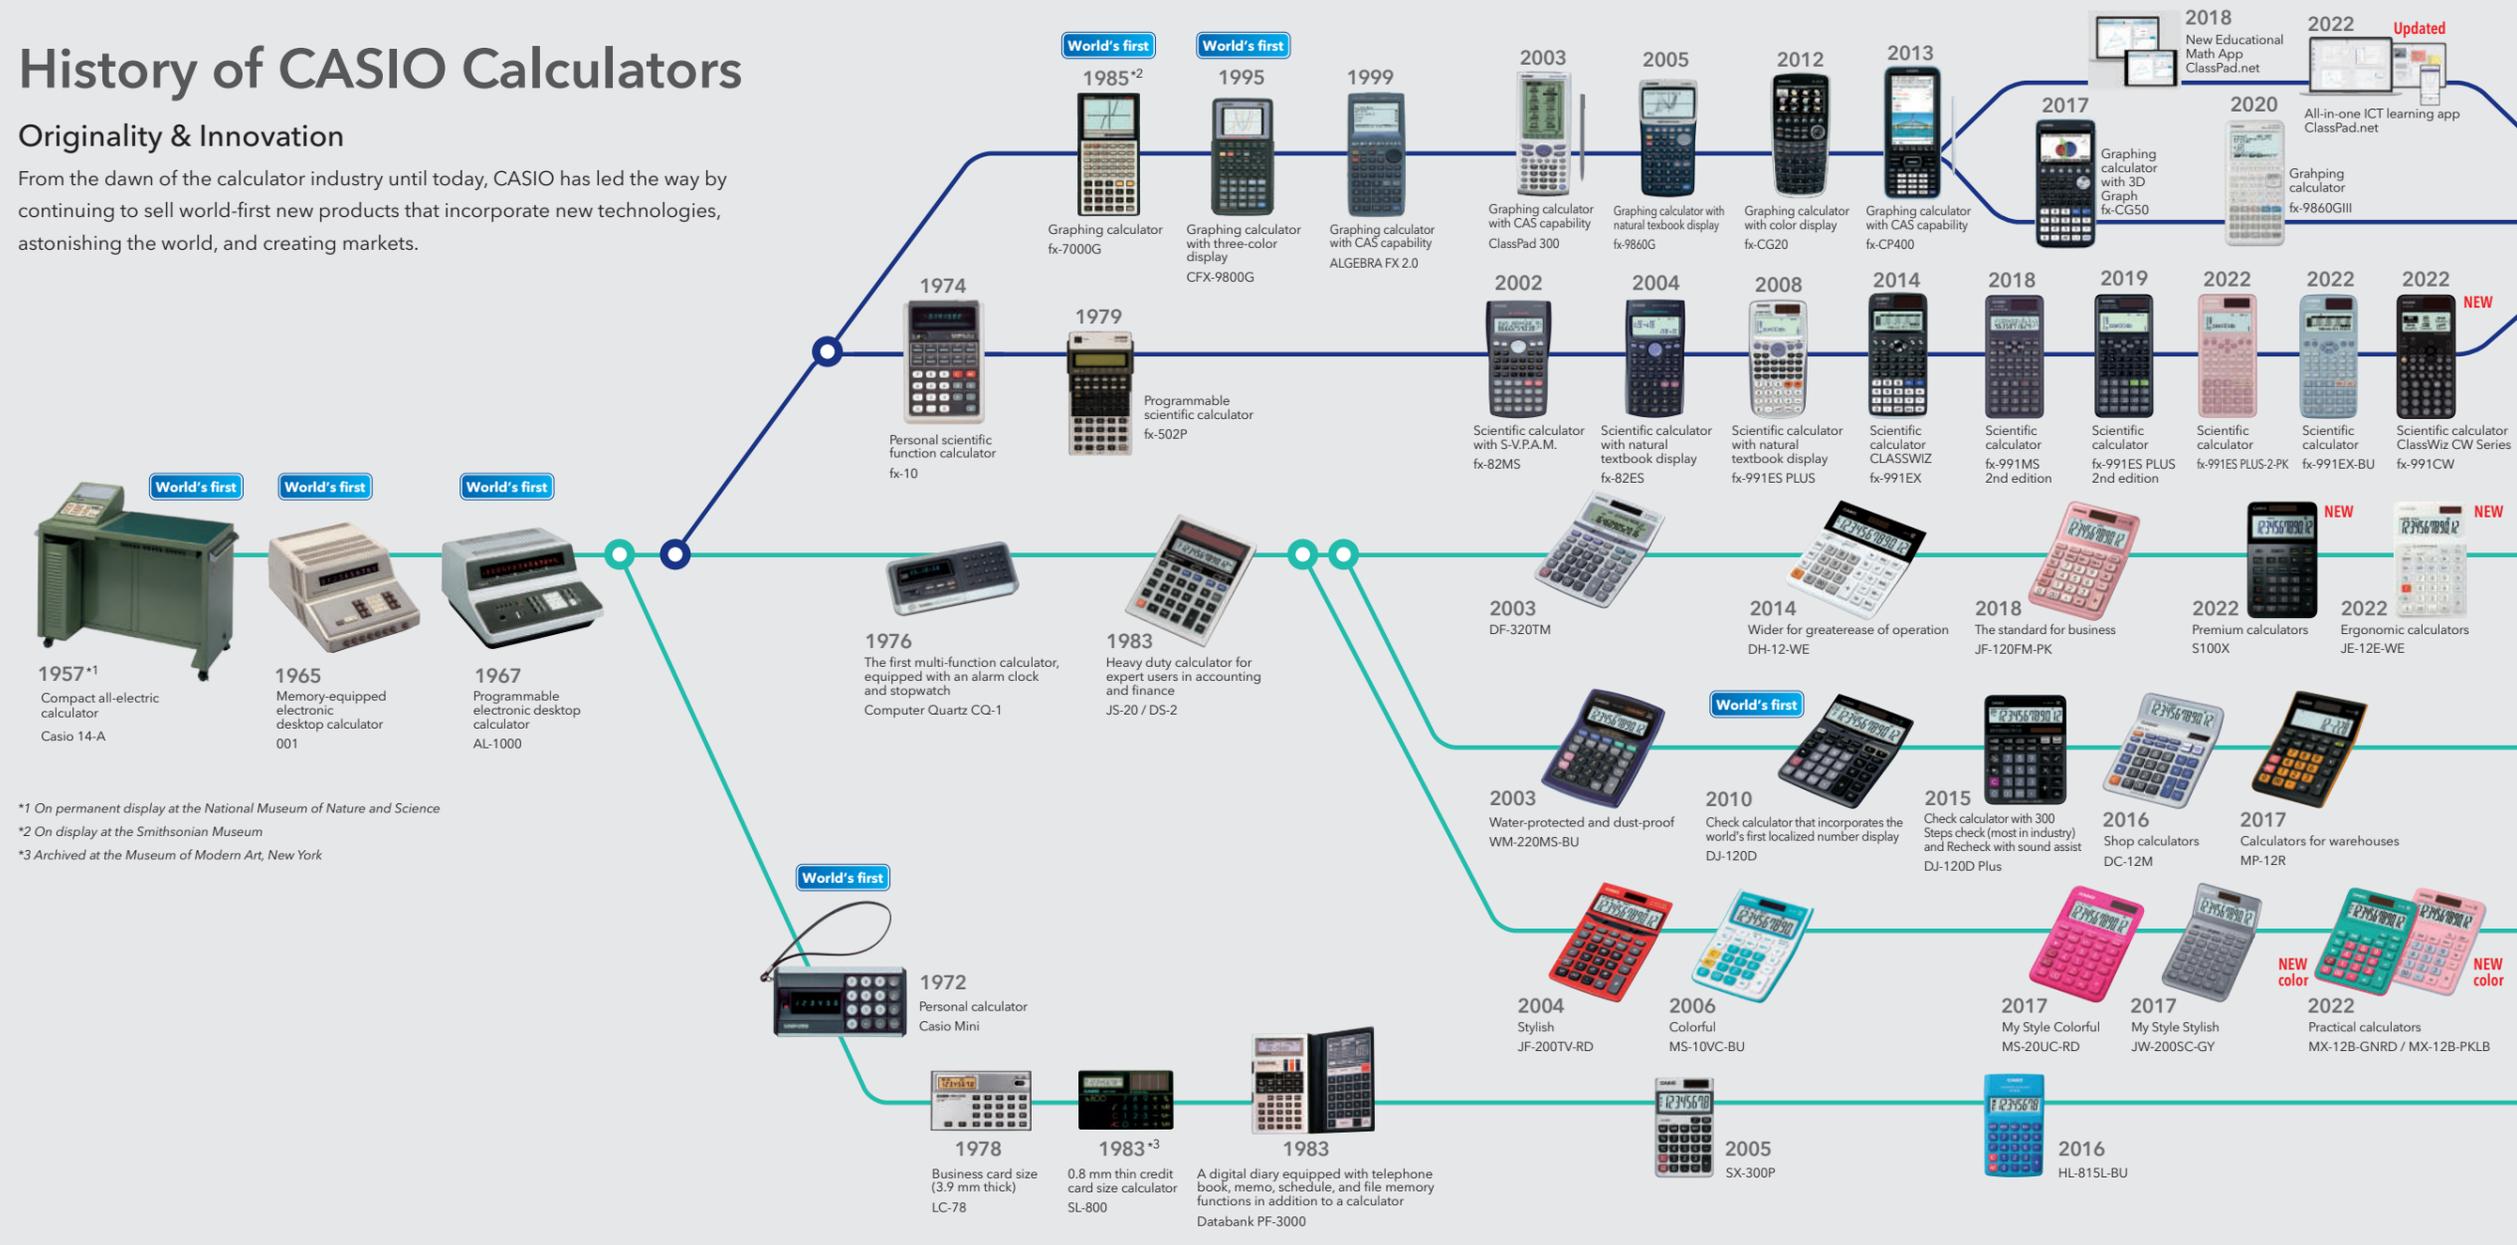

Reliable & Durable

“Reliable & Durable” is the engine of Casio’s business innovation and continuous growth.

History of CASIO Calculators

Originality & Innovation

From the dawn of the calculator industry until today, CASIO has led the way by continuing to sell world-first new products that incorporate new technologies, astonishing the world, and creating markets.

CASIO Education Statement

Boost Your Curiosity

Support learning and boost your curiosity towards learning

The origin of learning is curiosity. From curiosity comes interest.
We believe that these are important factors to enrich your life.

Curiosity makes you want to learn more.

By taking action to learn, reaching a conclusion,
learning something new and using that knowledge, new curiosity is formed.

We believe this "chain of curiosity" is what makes learning enjoyable.

However, it can be difficult to keep the chain going on your own.
We are aiming for a world where anyone can find learning enjoyable
by boosting the source of learning: curiosity.

History of CASIO's Education Business

At CASIO, we aim to contribute to society by developing products that the world has yet to see, under our corporate creed of "creativity and contribution".

We apply this same thinking to our education business, where we have been supporting people's learning through digitizing things universal, such as numbers and words.

1972

Release of Japan's first scientific calculator, fx-1

Made complex calculation easier

1972

1996

XD-500
Release of the first electronic dictionary, XD-500

Made reliable knowledge portable

1985

1985

The world's first graphing scientific calculator, fx-7000G

Capable of showing graphs on a large display.
Approved in many countries as a learning tool for students to improve their mathematical skills.

1996

2018

ClassPad.net

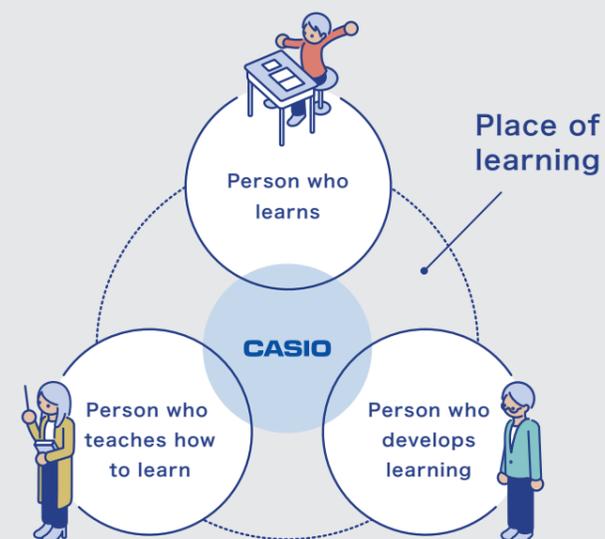

ClassPad.net

Launched our cloud-based learning service. Combined learning tools and learning content into one app.

CASIO and the Place of Learning

CASIO defines the relation between us and those who are involved in education as "place of learning".

In the place of learning, we at CASIO put ourselves in your shoes, whether you are learning now or will be in the future, and develop products based on unique technology with a strong sense of purpose and original ideas.

We will connect all those who are involved in education by developing products and services that stimulate the place of learning.

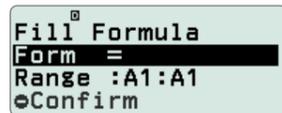

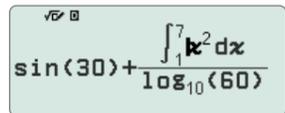

ClassWiz CW Series Debut

Intuitive, approachable new design

Design and user interface

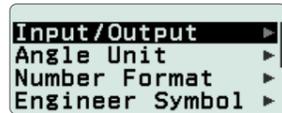

High-definition & 4-gradation display

With the 4-gradation display, the current input location is displayed in a darker color.

Intuitive cursor operation

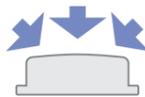

Simple cursor-based operations and a key layout that follows the natural flow of use.

Key shape designed for accurate entry

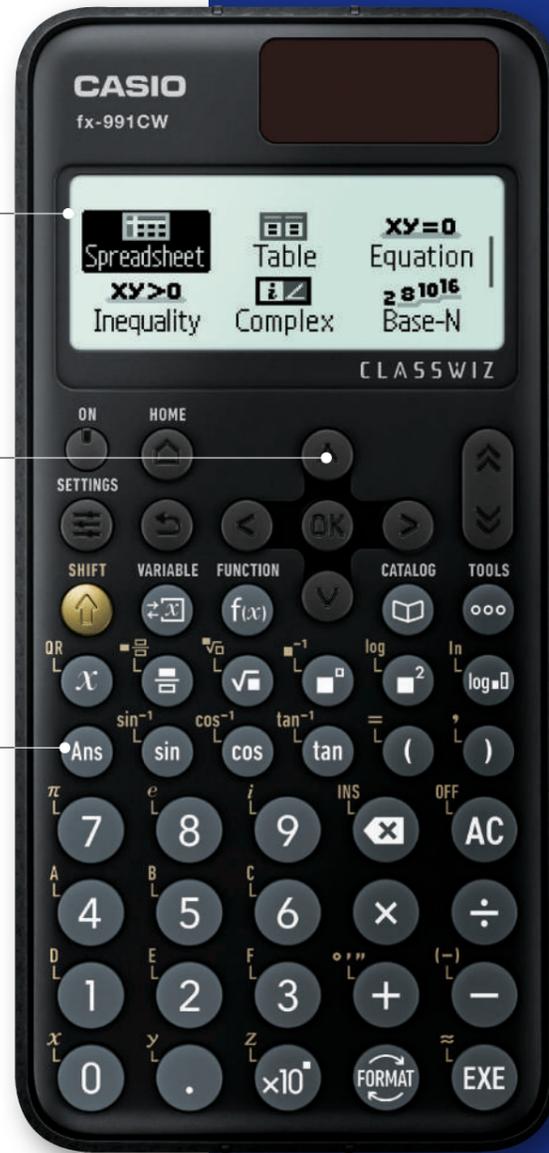

The convex key design makes it easy to press any key from any angle.

Simple key layout and labeling

- Frequently used keys are placed in convenient locations.
- Color coding distinguishes keys for cursor operations from keys used for numerical and function inputs.
- The sub key labeling on the upper left of each key is difficult to hide with your finger when you press the key.

Packed with features to encourage learning

Calculator apps

Easily select a calculator app from the Home screen that is suitable for the type of calculation that you want to perform.

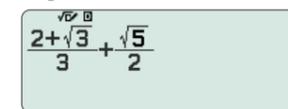

Spreadsheet

fx-991CW fx-570CW

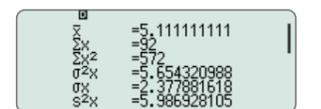

Useful for learning statistics, recursive formulas, and more. Handles up to 5 columns x 45 rows (maximum of 170 data items).

Calculate

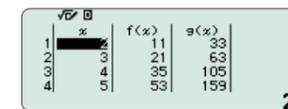

General calculations

Statistics

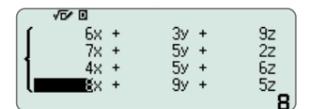

Statistical and regression calculations

Table

Generates a number table based on one or two functions

XY=0 Equation

Simultaneous equations, polynomial equations, and Solver (function to find the value of any variable contained in an input equation)

fx-991CW fx-570CW

Math Box

The following functions to support math learning: Dice Roll and Coin Toss for probability simulations.

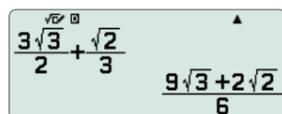

• Screen images might differ from the final product.

* Note: Unless specific models are indicated, functions are available for all models.

• A variety of other apps are available. For details, see the specifications chart.

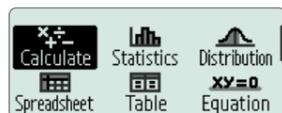

Natural textbook display

Input and display fractions, powers, logarithms, roots, and other mathematical formulas and symbols just as they appear in textbooks.

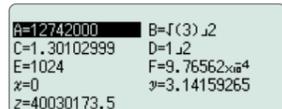

Intuitive, easy-to-learn icon display

The use of icons on the menu screen improves viewability. Selection of the desired function is quick and easy.

List display function for thorough, speedy learning

Variables and statistical calculation results stored in memory can be displayed in lists.

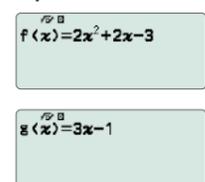

High-speed calculations

Fast calculations for smooth performance in class or during examinations.

Online visualization service using QR codes

Easily generate QR codes of equations input into the calculator. Graphs and other graphics can be displayed on smartphones or tablets.

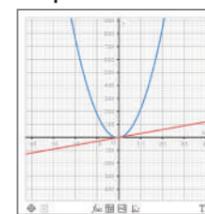

Input data

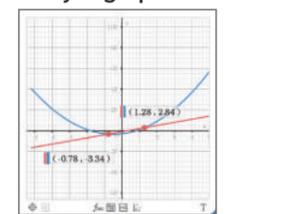

Generate & scan QR code

Graph on smart device

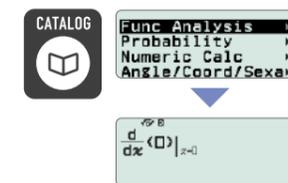

Analyze graph

Variety of functions available in calculator apps to support students' learning

CATALOG

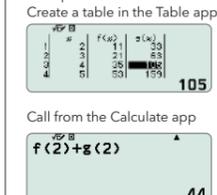

The CATALOG menu shows categories of commands, functions, and symbols according to the calculator app that you are currently using and the current status of the app (the displayed screen or current settings).

FUNCTION

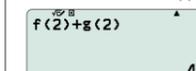

You can store functions in both the f(x) and g(x) memory. Press the (f(x)) key to display a menu for defining functions and calling the functions stored in f(x) and g(x). Call the function saved to the function memory from the different calculator apps.

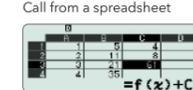

Examples:

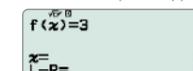

Call from the Calculate app

Call from a spreadsheet

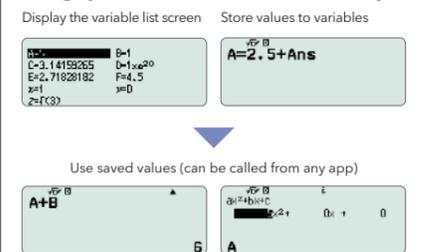

Call from the Equation app's solver

VARIABLE

You can store values to variables and use the variables in calculations. Pressing (VAR) displays a screen that shows the values currently stored to variables A, B, C, D, E, F, x, y, and z.

Things you can do with the Variable key

Please visit the website for details.

* Comes with slide-on hard case.

Tough & Sustainable

CASIO has established three criteria to ensure excellent quality in the CASIO scientific calculators*.

*ClassWiz, ES PLUS, MS Series

1 Wear-resistant printing

Since CASIO scientific calculators* are products used for many years as learning tools, the keys are made of a material that offers high durability and resistance to print peeling.

*ClassWiz, ES PLUS, MS Series

2 Drop-resistant body

The high product quality prevents malfunction or breakage when a calculator is dropped.

3 Environmentally friendly

Unit: parts per million (ppm)

Harmful substances	Upper limit	Content
Cd	≤ 100	Clear
Pb	≤ 1,000	Clear
Cr ⁶⁺	≤ 1,000	Clear
Hg	≤ 1,000	Clear
Br*	≤ 1,000	Clear

Product component analysis results

Compliant with RoHS environmental regulations

The materials used in CASIO scientific calculators comply with European RoHS environmental regulations, an international standard.

*Complies with DEHP, BBP, DBP, and DIBP

These three quality features ensure that CASIO scientific calculators are educational tools that effectively support learning.

Authenticity Check

Two methods enable authenticity checking before and after purchase. Furthermore, Premium Content is available to registered users of genuine CASIO scientific calculators*.

*ClassWiz, ES PLUS, MS Series

Web Authenticity Check System

There are two Web Authenticity Check methods. Confirm product authenticity by using a smartphone to scan a QR Code attached to the product package or shown on the calculator display.

Before purchase

Check on the calculator packaging

- A sticker with a QR Code and hologram is affixed to the product package.
- Scan the QR Code with a smartphone to go to the linked webpage and view the authentication result.

The hologram has an iridescent rainbow color section and a shiny white section, and the CASIO logo is visible.

After purchase

Check on the product display

- Display a QR Code on the calculator display.
- Scan the QR Code with a smartphone to go to the linked webpage and view the authentication result.

Judgment result screen

Likely to be a genuine product.

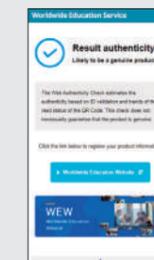

May not be a genuine product.

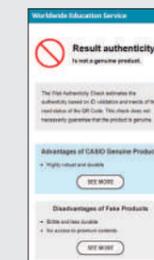

Not a genuine product. Please do not purchase.

For details about the supported models, see the website.

Judgment result screen

Likely to be a genuine product.

Not a genuine product. Please do not purchase.

* "QR Code" is a registered trademark of Denso Wave Incorporated in Japan and other countries.
• The examples shown here use simulated QR Codes and ID numbers.

Design Simple and easy to use

Simple design focusing on how the device is held, as well as how easy it is to read and use.

Highly visible, easy-to-press cursor keys and function keys.

Hard case that's attachable and detachable in any direction for greater ease of use.

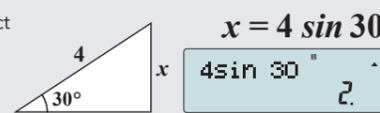

Function Packed with essential functions

MS series calculators come with scientific calculation, statistical calculation, differential* and integration* functions. *fx-991MS 2nd edition, fx-570MS 2nd edition, fx-100MS 2nd edition only

Exponent notation is the same as the notation in textbooks.

Super Visually Perfect Algebraic Method
S-V.P.A.M.

GRAPHING MODELS

Graphing calculators with an innovative color display, 3D Graph and Python.

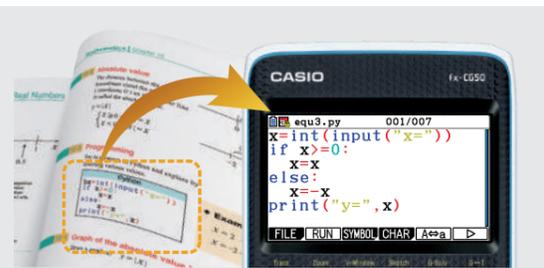

fx-CG50, 9860GIII are suitable for AP, SAT, SAT Subject, PSAT, NMSQT, ACT & IB examinations.

Learning algorithmic thinking with Python*

The fx-CG50 comes built-in with Python, a programming language used in the development of Internet search engines, social media sites, robots, etc. Python is attracting attention in the field of education as a learning tool that cultivates algorithmic thinking and has been adopted for use in textbooks.

* Python is a registered trademark of the Python Software Foundation. Python mode supports a version of MicroPython Version 1.9.4, which has been adapted to run on this calculator. Please note that MicroPython is different from the Python that runs on a computer.

fx-CG50

By Python

```

equ3.py 001/007
x=int(input("x="))
if x>=0:
    x=x
else:
    x=-x
print("y=",x)
    
```

Answer

$x=2 \rightarrow |x|=2$
 $x=-2 \rightarrow |x|=-(-2)=2$

```

>>>from equ3 import *
x=2
y=2
* SHELL Initialized *
>>>from equ3 import *
x=-2
y=2
    
```

Input programs can be run on a PC.

Connect the fx-CG50 to a PC to run programs written on the calculator on the PC.

Colored text and command search capability support program input.

The high-visibility colored text promotes error-free, accurate program input. Speed up input by using the catalog function to search for commands.

Graphics over 2,900 FUNCTIONS, 61,000 bytes, Natural Textbook Display, List-based STAT, Multi-replay, 21 characters by 8 lines, 10+2 DIGITS, ICON MENU, D.O.T MATRIX, Plastic Keys

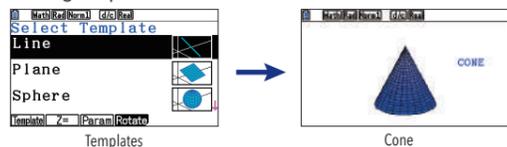

* Comes with slide-on hard case

3D Graph increases learning comprehension.

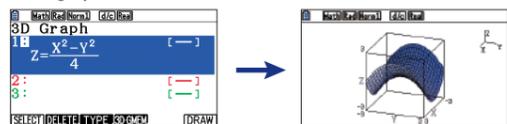

Draw and display 3D graphs.

3D graphs can be drawn in various ways.

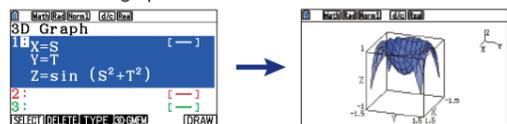

1. Using templates

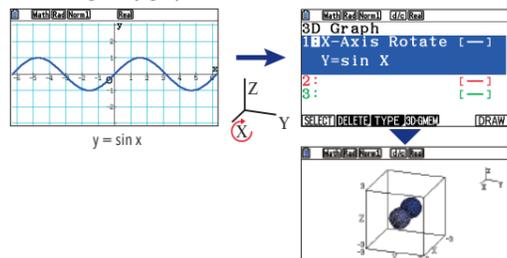

2. Z= graph

3. Parametric graphs

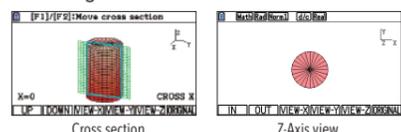

4. Rotating body graphs (around X-Axis)

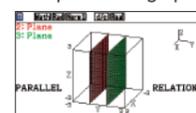

Explore 3D graphs mathematically.

1. Viewing from various directions

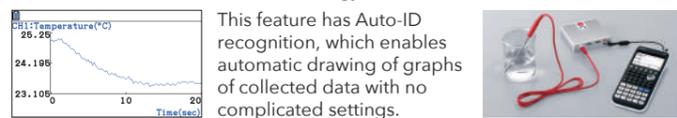

2. Relationship between graphs

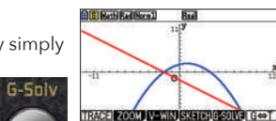

E-CON4

This feature, with a simple user interface, is effective for collecting data for use in classroom science and technology lessons.

G-Solve feature

Find the point of intersection of two graphs by simply pressing the "G-Solv" key.

Distribution

Use the Distribution Mode to study common probability distribution such as binomial and normal distribution.

Catalog Function

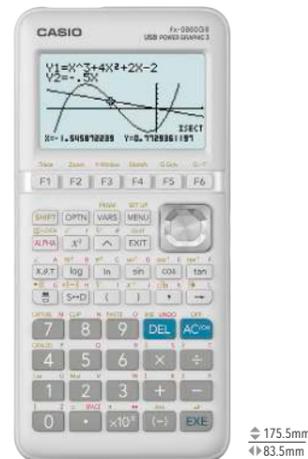

1. Select the desired command easily and quickly using the catalog function.
2. You can access an online manual via smartphone or tablet using a QR Code.

* "QR Code" is a registered trademark of DENSO WAVE INCORPORATED.

Examination Mode

This mode allows you to quickly prepare your calculator for exams. This mode restricts access to memory, programs, functions and applications, so that these features would not be available during exams.

Please visit the website for details. <https://edu.casio.com/products/graphic/fxcg50/>

fx-9860GIII

Graphics over 2,900 FUNCTIONS, 62,000 bytes, Natural Textbook Display, List-based STAT, Multi-replay, 21 characters by 8 lines, 10+2 DIGITS, ICON MENU, D.O.T MATRIX, Plastic Keys

User-friendly Interface

- Large display (128 × 64 dots) • High-resolution LCD
- High-speed CPU
- Rectangular coordinate graphing, Polar coordinate graphing
- Parametric function graphing, Inequality graphing
- Table and Graph • Dual graph (table and graph, graph and graph)
- Solve (root, minimum, maximum, intersection, integration)
- Dynamic graph • Conic section graph • Recursion graph
- eActivity • Geometry
- Statistical plot (scatter plot, xyLine, normal probability plot, histogram, box plot)
- Statistical regression graphs (linear, med-med, quadratic, cubic, quartic, logarithmic, exponential, power, sinusoidal, logistic regression)
- Advanced statistical calculations: tests, intervals, distributions (geometric, hypergeometric, Poisson)
- Pie chart • Bar graph • Spreadsheet and statistical plot
- Numeric equation solver, Simultaneous equations, Polynomial equations
- Financial functions • Programming • Python
- Examination Mode • Catalog Function
- Data communication • Out-of-the-box USB operations
- Direct connection to a projector
- User memory: 62,000 bytes, User storage memory: 3 M bytes

* Comes with slide-on hard case

fx-7400GIII

Graphics over 2,100 FUNCTIONS, 20,000 bytes, List-based STAT, Multi-replay, 21 characters by 8 lines, 10+2 DIGITS, ICON MENU, D.O.T MATRIX, Plastic Keys

POWER GRAPHING

- High-definition display (128×64 dots) • Inequality Graphing
- Polar Graph • X= Graph
- Graph Solve Function (Root, Intersection) • Sketch (Tangent)
- Bar Graph/Pie Chart
- Random Number Function • Quotient, Remainder
- String Functions • Unit Conversion
- Solve Calculations (EQUA mode) • GCD/LCM
- 12 Types of Regression • Complex Calculations
- Catalog Function • Polynomial Function (EQUA mode)
- Simultaneous Functions (EQUA mode)
- Base-n Calculation • Display Language Setting
- Data communication (requires optional 3-pin cable)

Main Functions

- Inequality Graphing • Polar Graph • Graph & Table
- Graph Solve Function • Pie Chart • Bar Graph

* Comes with slide-on hard case

Please visit the website for details. <https://edu.casio.com/products/graphic/>

CAS GRAPHING MODELS

With CAS Graphing calculators you can use symbolic as well as numerical expressions. CAS is Computer Algebra System.

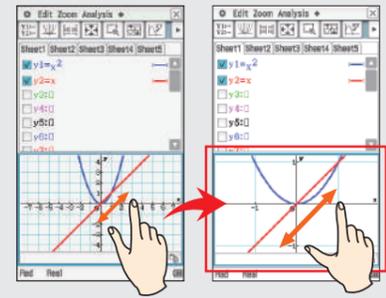

Vivid Color Display and Touch Panel for Superb Usability

A top-of-the-line model that effectively supports the learning of functions

- Color Display
- Touch Panel
- Powerful Applications

Pinch in /out

Intuitive pinch-in/pinch-out zoom operation makes it possible to adjust graphs to the desired display size. You can enlarge or reduce graphs without having to learn an additional operation.

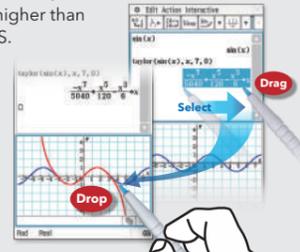

©Phillip Minnis-Fotolia.com

Beautiful 4.8-inch color display

Formulas, graphs, and other graphics are sharp and clear.

The display has resolution of 528 x 320 pixels (more than 65,000 colors), 4.4 times higher than ClassPad 330 PLUS.

Pen-touch Operation

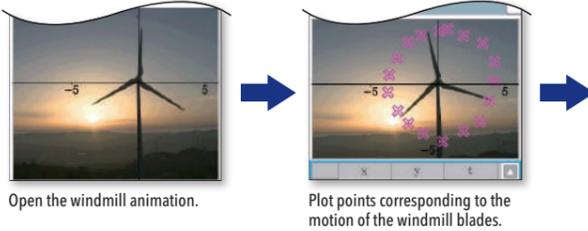

Quickly and easily create graphs using drag and drop.

- CAS Computer Algebra System
- 25 chapters by 15 lines
- 10+3 DIGITS
- 500 KB
- Natural Textbook Display
- List-based STAT
- Multi-replay
- Plastic Keys
- DOT MATRIX
- ICON MENU

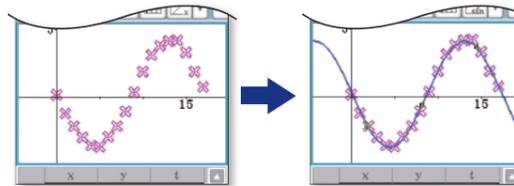

Picture Plot

Single and multiple images make learning interesting and fun. The calculator comes pre-loaded with visuals such as a single image (still image) of the curve of an arched bridge and multiple images (sequential images) of the rotation of windmill blades. The use of real-life visuals as background images for functions such as the drawing of graphs overlaid on color images makes mathematics learning a more visually familiar experience.

Open the windmill animation.

Plot points corresponding to the motion of the windmill blades.

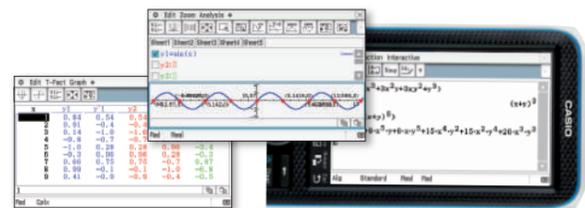

Convert from an x-y graph to a r-x graph and view change in the x direction over time.

Express how the x coordinate behaves over time using a formula.

ClassPad II fx-CP400

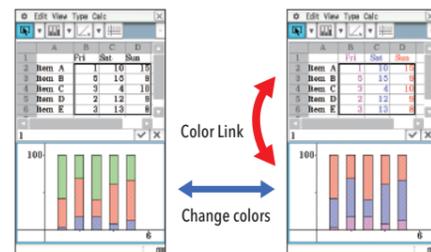

Supports Horizontal Screen View

Switch the display between an upright screen view and a horizontal screen view by simply touching an icon on the panel. Horizontal screen view is convenient for displaying a long formula on a single line and observing the characteristics of graphs of trigonometric and other functions.

Color Link

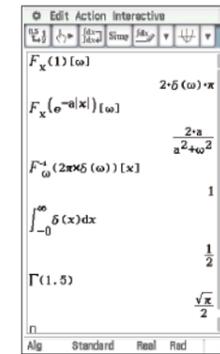

The fx-CP400 features the Color Link function, which automatically links colors specified on the spreadsheet screen with colors used in graphs to support learning of functions by enabling visual confirmation of changes in values or trends.

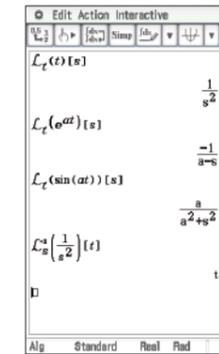

Use Color Link to link the color of text and graphs.

Computer Algebra System (CAS)

The CAS supports everything from Expand, Factor, Solve, and other basic commands to advanced commands like Fourier and Laplace transforms.

Fourier transforms

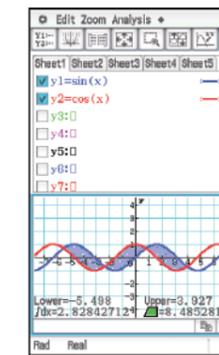

Laplace transforms

Graphing Function

Display formulas and related graphs in the same color and highlight graph characteristics by displaying scale marks, grids, and coordinate values. The vivid color display of the fx-CP400 improves the visibility of graphs and formulas.

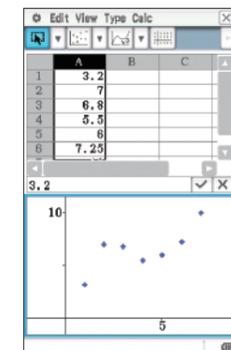

Area of inequality shading, grid lines, numbers on axes

f(x) intersection

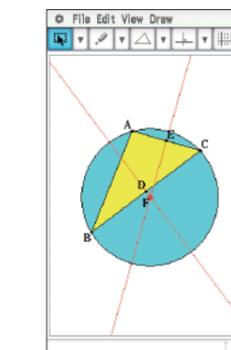

Spreadsheet Application

Collected data can be organized and tabulated for analysis after statistical graphing is complete. Spreadsheet data also can be used in table calculations. In addition, the fx-CP400 supports the following functions: search, sort, data import from and export to lists, matrices, and variables, CellIf, and Histogram/Box-whisker graphing.

Geometry

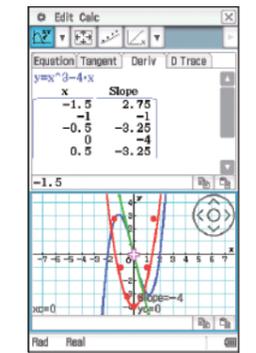

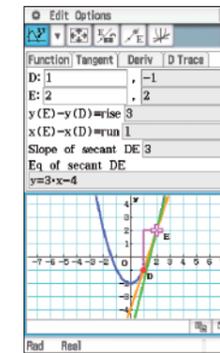

Students can learn general theorems by drawing figures. Dropping a geometric figure into the Main application window will produce the numerical data for the figure. An Animation function enables students to move geometric figures drawn on the screen. The fx-CP400 supports drawing of conics using a focus.

Interactive Differential Calculus

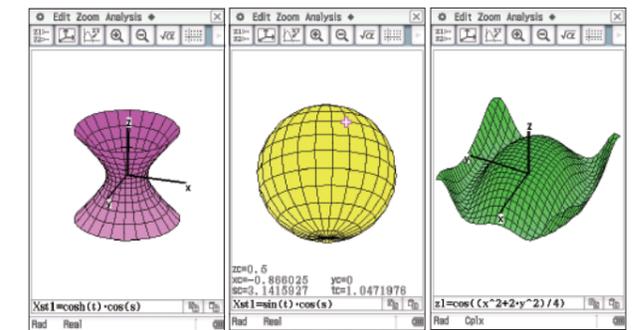

Visual, intuitive operation makes it possible to learn the concept of hard-to-understand differentials.

- Learn that the secant line approaches the tangent line by causing Point D of the secant line to approach Point E.
- Learn the concept of differential functions by linking the points that define the slope of a tangent line.

3D Graph Application

The 3D Graph application lets you draw rectangular coordinate graphs (z=f(x, y)) and parametric function graphs (x=t, y=f(t), z=f(t)). The large color display facilitates understanding of hard-to-visualize 3D graphs.

E-CON3 Application

E-CON is an application used to operate a data logger, a device used to collect data. E-CON makes it easy to collect data for use in classroom science and technology lessons.

This feature is useful in science experiments.

Exam Mode

This mode enables a calculator to be quickly prepared for exams. It restricts access to memory, programs, functions, and applications so these features are not available during exams.

Please visit the website for details. <https://edu.casio.com/products/cg/>

PROGRAMMABLE MODELS

Versatile programmable calculators for every purpose from high school and university classes to professional applications.

SUPER-FX PLUS
fx-5800P

- 664 FUNCTIONS
- 28,500 bytes
- Natural Textbook Display
- List-based STAT
- Multi-replay
- 10+2 DIGITS
- DOT MATRIX
- Plastic Keys

Natural Textbook Display, More Powerful Program Functions, 4-line Display

- Program functions
- Matrix calculations
- Differential and integration • Recursions
- Solve function • Complex number calculations
- Base-*n* calculations
- Data transmission between two fx-5800P calculators
- 26 to 2398 variables • Fraction calculations
- 40 scientific constants • 128 built-in formulas
- Multi-replay function
- Statistics (List-based statistics, Standard deviation, Regression analysis)
- Integrated hard case swings back a full 360 degrees.

SOFTWARE / APP

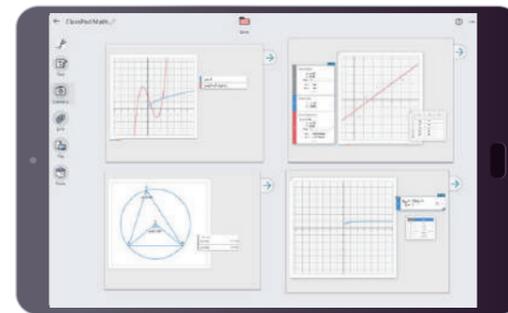

Supports Advanced Learning
The new digital notes feature and ClassWiz Emulator have been added to the Graphing Calculator functions!
An all-in-one ICT learning app suitable for both the classroom and independent study

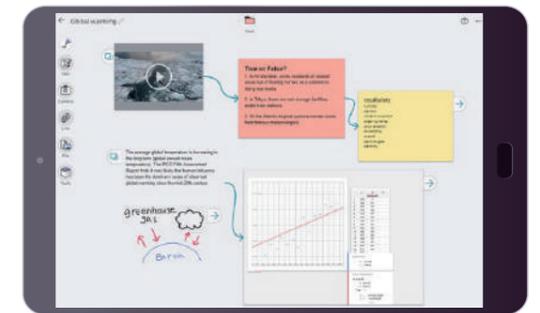

Graphing Calculator function "ClassPad Math"

ClassPad.net helps users to understand mathematics visually by allowing intuitive, simple control of a variety of graphs, shape creation functions, statistics and calculations. Users can also publish any mathematics educational materials that they have created to users around the world using URLs.

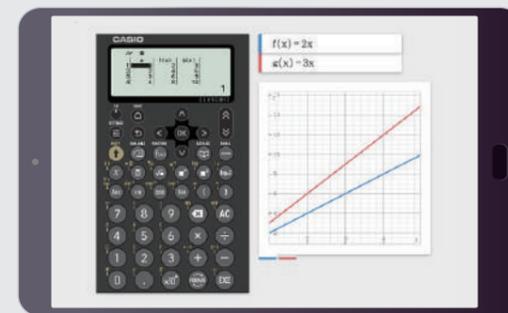

Digital Notes Feature

A variety of information useful for everyday learning can be accumulated using text input, handwriting input, images, website links and more. By creating unique, colorful notes with their own personal touches, students are certain to be motivated to learn.

ClassWiz Emulator on ClassPad.net *Fees apply

The ClassWiz Sticky emulator software from the ClassWiz Series of scientific calculators is available on ClassPad.net. It can be used using the same UI as the ClassWiz Series scientific calculators, and data input into ClassWiz Sticky and sticky notes based on calculation results can be automatically generated.

Compatible models

CASIO General calculators lineup 2023

General Calculators

ERGONOMIC CALCULATORS Debut

3°

ERGONOMIC STEP KEYS

Sloping the keypad surface 3° ensures a comfortable fit with the fingers of the right hand. Arranging the keys themselves in an un-sloped step configuration keeps the keystroke direction vertical. This all-new structure makes key input with a natural hand position easy.

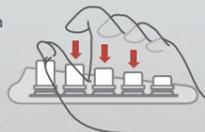

3° makes all the difference
Ergonomics × Calculator

Point 1

Calculator is used with right hand angled

Point 2

Keystroke direction stays vertical

Person-centered, friendly design

Generous use of curves gives a soft, rounded look to the calculator. The shape delivers a pleasant, comfortable touch.

Curvature to smooth out the difference in heights due to the sloped keypad surface creates a fresh, new shape that still feels fitting for a calculator.

Asymmetrical design, including more compact rounding of the corners on the right side and off-center placement of the aluminum panel, creates a unique look.

Ripple-patterned grooves on the back of the case offer a good grip from any direction. Ease of use was the priority even for parts that no one sees.

Ergonomic Calculator Development Story

All for Users Who Value Easy Key Input

The development of the Ergonomic Calculator was driven by feedback from calculator users, detailed research, and repeated experiments. Read on for the story.

Kanako Kimura
Hardware Section
Products Strategy
Department
Education Business Unit
Casio Computer Co., Ltd.

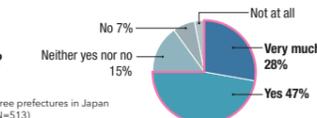

Shunsuke Oka
Design Department
Watches & Wearables
Casio Computer Co., Ltd.

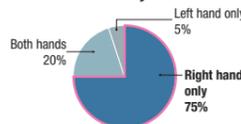

Fact: 75% of calculator users value ease of key input when purchasing a calculator

Is ease of key input important to you when purchasing a calculator?

(2021 survey of workers from Tokyo and three prefectures in Japan who use calculators with their right hand, N=513)

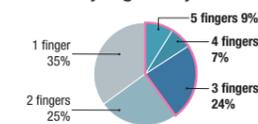

Which hand do you use?

(2020 survey of workers from Tokyo and three prefectures in Japan who use calculators, N=2,034)

How many fingers do you use?

(2021 survey of workers from Tokyo and three prefectures in Japan who use calculators with their right hand, N=513)

* Contracted survey conductor: ASMARQ Co., Ltd.; Survey method: Internet research

What is it that users are looking for in a calculator? A survey revealed that 75% valued ease of key input when purchasing a calculator. Thus began the project to develop a calculator that would deliver even better operability for heavy users who press the keys with three to five fingers of their right hand.

In an age when there are many calculator apps available, users still value the easier key input of a physical calculator. The Casio Heavy Duty Calculator line had already been favorably received. So, the mission of this new project was to come up with a new way to deliver ease of use.

Thorough analysis of what happens to the hand and fingers, done with a specialized institute

Motion capture cameras, 3D force sensors, etc., were used to capture data.

- Movements and positions of hands and fingers
- Direction in which keys are pressed

Kanako Kimura wanted to add an objective approach to the subjective and intuitive evaluations, in order to unlock the secret of easy key input. Casio worked with Japan's National Institute of Advanced Industrial Science and Technology to analyze what happens to the hand and fingers when people use a calculator.

*This product incorporates the results of the joint research with the National Institute of Advanced Industrial Science and Technology.

We didn't want to just create another new product, so we really thought about what should change, and what should not. Looking back to the very first Casio calculator, the 14-A, I studied the original design intentions. I even interviewed some of the developers. All this was before we started the research with AIST.

Sloping the keypad surface, but not the keys themselves: Repeated testing led to the Ergonomic Step Keys

Further experiments revealed that the keystroke direction always stayed vertical, even if the calculator was sloped. This is the secret of the Ergonomic Step Keys, which have been kept vertical even though the keypad surface is sloped.

A person-centered, friendly design with a soft, rounded overall look

Illustrations were used to review the calculator's image, and mockups to assess its 3D form. The number of design possibilities was too vast to describe here.

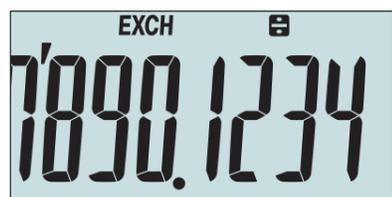

After Shunsuke Oka was briefed on the basic concept, he started working on the product design. At first, he thought about giving it a more angular look, resembling a gaming mouse, but eventually he arrived at the soft, rounded design.

When the request first came in, I was excited to get to work on a drastically different concept than the conventional calculator. I finally settled on a "person-friendly" design, based on the phrase: "Making the calculator fit the person, not the person fit the calculator." I used curves to create a design with a soft, rounded look.

Excellent durability and functionality for demanding work requirements – Heavy Duty Calculators

Extra Large Display

Actual size

Key Layout and Key Cap Shape

Keys are ergonomically shaped and configured to match natural finger movements.

Solar & Battery

Large Rubber Feet

Large rubber feet on the bottom of the calculator keep it from slipping during operation.

Function Command Signs

Silent Touch Keys

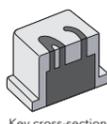

Keys are specially designed for silent operation when compared to previous Casio calculators to help maintain a more pleasant working environment.

Three-Key Rollover

Key operations are stored in a buffer, so that nothing is lost even during high-speed input.

Heavy Duty Durable Keys

Keys are produced by injecting plastic of two different colours. Key markings are plastic, which means they do not wear or fade with use.

Key cross-section

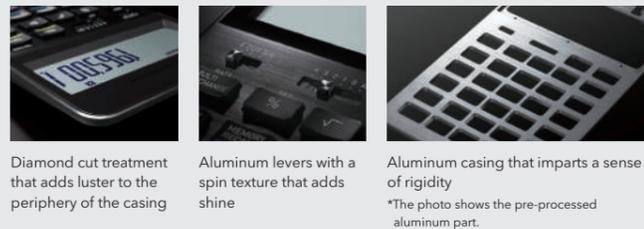

*Excluding the [MEX], [TAX+], and [TAX-] keys.

Unique Features – HEAVY DUTY Calculators

Durable Anti-fade Keys

28 keys, including numeric and arithmetic keys, are produced by injecting plastic of two different colors. Key markings are plastic, which means they do not wear or fade with use.

Key cross-section

Non-slip Structure

Four large rubber feet on the bottom of the calculator keep it from slipping during operation.

Silent Touch Keys

Keys are specially designed for silent operation when compared to previous CASIO calculators to help maintain a more pleasant working environment.

Solar & Battery

An internal battery powers the calculator to save calculations even if light is interrupted during a calculation.

DESIGN

Form

COLORFUL

The rounding of the case includes the underside as well as the upper body, so users can hold it comfortably in their hand.

STYLISH

The slim body's sophisticated, sharp-edged design projects an active impression.

Keys

COLORFUL

The flat key shapes are artfully coordinated with the casually rounded case design.

STYLISH

The keys with their concave tops express a functional beauty that is artfully coordinated with the classy case design.

Font

COLORFUL

Large, thin-lined characters inscribed in a beautifully supple font and adjusted to the key top sizes project an informal impression.

STYLISH

One-step smaller characters inscribed with thicker lines than the Colorful calculator font create a more formal impression.

Angled display

The display is easy to read even when serving customers while seated.

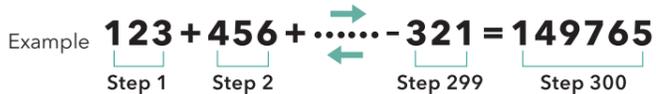

Grip shape and texture

- A shape that fits the hand
- Non-slip surface

Unique Function – Check Calculators 300 STEPS CHECK

Review and Auto Review Review up to 300 calculation steps (up to 150 steps for MJ-12Da only).

AUTO REVIEW Auto review by pressing a single button!

CORRECT While reviewing a calculation, you can make changes in values and operators and re-execute to obtain a new result.

* The LCD examples are from a DJ-120D Plus.

Go to (Excluding MJ-120D Plus / MJ-100D Plus / MJ-12VCb / MJ-12Da)

GO TO Jump to a particular calculation step by pressing a single button.

Change Function

Change function for simple calculation of payment amount and change

- AC ON 80 x 3 = 240
- 50 x 3 = 150
- 20 x 2 = 40
- GRAND TOTAL 430
- 500 CHANGE 70

Label Printers

CASIO Label Printers lineup 2023

SMARTPHONE MODEL

KL-BT1

- Accepts 18, 12, 9, and 6mm tape widths
- Max. print width, 12mm
- 200 dpi resolution
- AC adaptor (included) or 6 ×AA-size alkaline (LR6) batteries (sold separately)

Create a fashionable label easily.

Label printing software LABEL DESIGN MAKER

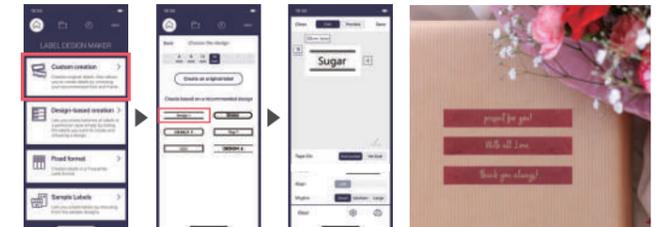

Create a label using a smartphone app. It's a simple operation that just combines the entered words and emojis. If you choose from templates and print, you can easily create a fashionable label with the recommended layout and frame.

*Android™ 7.0 or higher / iOS 13.0 or higher

For shops and decorations, etc.

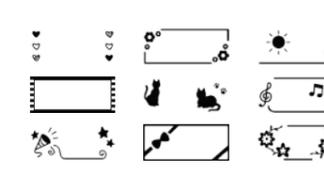

Sample labels for displays at shops, drawing attentions, etc. There are plenty of categories and types for you to choose.

Changeable fonts

Selectable frames

Various emojis

Multiple languages

PC & SMARTPHONE MODEL

Printing speed of 20mm/sec*
* When using the AC adaptor.

Accepts 24mm tape

Windows® PC / Android™ / iOS / Mac*

KL-P350W

- Accepts 24, 18, 12, 9 and 6mm tape widths
- 18mm print head / 200 dpi resolution
- * When using Magnetic tape, print head is max. 16mm
- Auto cutter with half-cut function
- AC adaptor (included)

It's possible to print labels in any language used on PCs or mobile devices.

Convenient printer keys for one-touch printing

Memory print

One-touch printing of pre-registered label data is useful for printing frequently used labels.

Reprint

One-touch reprinting of the previously printed content is convenient when you want to replace an existing label.

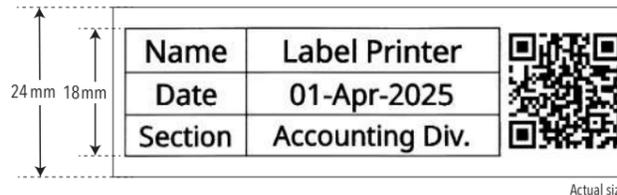

Used with a smartphone

KL-P350W product features

Fast, easy printing of labels useful for organizing and managing things

It's simple to print labels useful for a variety of applications, including filing, asset management, and attention notices. Insert QR Codes or barcodes.

* "QR Code" is a registered trademark of Denso Wave Incorporated in Japan and other countries.

Actual size

Space-saving design for desktop use

Choose horizontal or vertical setup according to the space available. The compact printer is always available to create labels when needed.

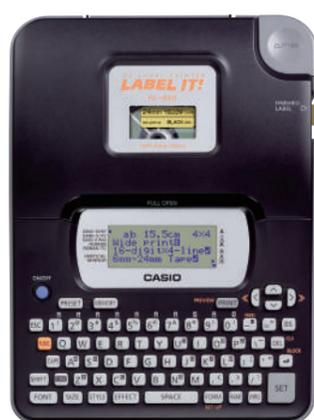

Vertical

Horizontal

WIDE PRINT MODEL

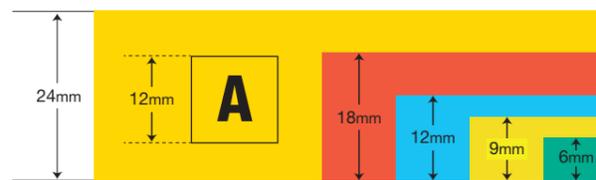

Accepts 24mm tape

KL-820

- Accepts 24, 18, 12, 9 and 6mm tape widths
- Barcode printing
- 6 languages
- AC adaptor (sold separately)

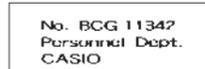

Handles 24, 18, 12, 9 and 6mm tape widths.

Wide, high-definition print head with max. 12mm print height/200dpi resolution.

* Actual size

Prints up to 3 lines (24 or 18mm tape)

LABEL DESIGN MAKER

Label printing software for KL-BT1 and KL-P350W

Simple operation for quick and easy label creation

Create original labels or print pre-designed labels simply by choosing from a wide variety of pre-loaded label samples.

Label samples

Choosing labels by scene

for PC

Label samples are searchable by setting.

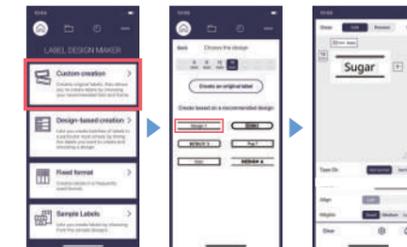

- Factory • Office • Hospital • School
- Store • Construction

Freestyle creation

for PC / for Smartphone

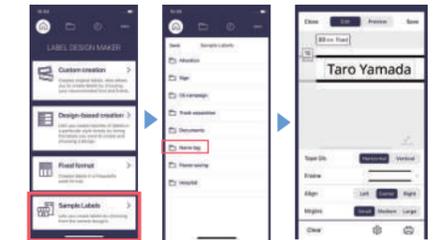

Create a label based on a recommended design or create your own original label choosing from various fonts and frames. Simple operation makes it easy to organize.

Choosing labels by category

for PC / for Smartphone

Create a label by just choosing from the sample labels of different For example, make a name label.

Connection methods of compatible label

Tape widths (mm) 24 18 12 9 6

Kraft Tape

The natural colored kraft tapes are great for gift wrapping, arrangement of handmade goods, POP displays at shops, etc. There are five colors for you to choose.

High-Strength Adhesive Tape - No residue - Cover up

24 18 12 9 6

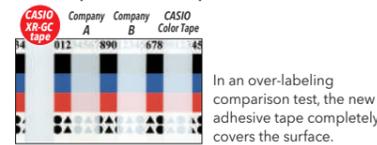

*1 BLACK on SILVER not available in 6 mm width

This tape uses a newly developed adhesive that is very strong and leaves no residue when labels are removed. When used for over-labeling, it covers up the surface.

Labels peel off cleanly.

The tape covers up the surface.

Color Tape

24 18 12 9 6

This standard labelling tape comes in a wide variety of colors. Using labels color-coded according to the objects to be labeled or their purpose makes it easy to organize and manage things.

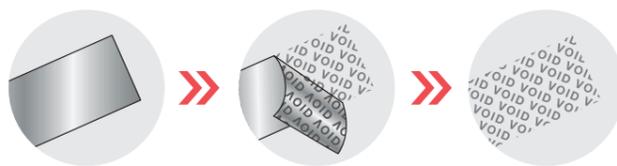

Tamper-Evident Tape

24 18

This tape leaves the word "VOID" on the application surface when removed, making it possible to detect whether labels have been removed. It is effective for applications such as anti-tampering security and protection of confidential information.

* If applied to hard-to-stick surfaces, VOID pattern might not be left sufficiently when the label is peeled off.

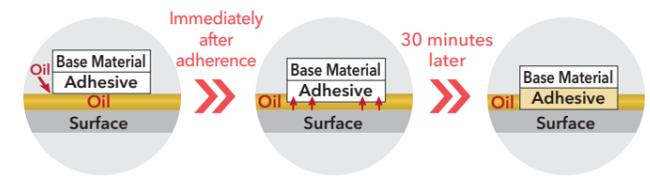

Tape for Oily Surfaces

24 18 12 9

This tape uses an adhesive that can absorb oil from the surface. Labels can be attached to surfaces contaminated with salad oil, lubricating oil, engine oil, anti-rust oil, or other types of oil or grease.

* If a surface is heavily covered with oil, the tape may not reach full adhesive power.

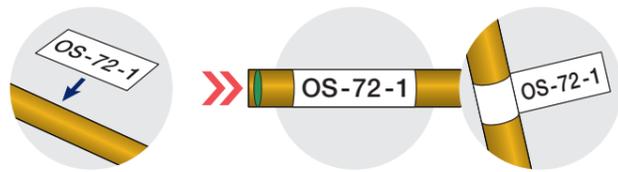

Cable Flexible Tape

A 18 12 9

This tape conforms to curved surfaces such as cables and bottles.

* Suitable for use with USB cables and other cables with connectors

Heat Shrink Tube

A 18 9

*2 Φ (diameter) 5.0mm~Φ11.0mm *3 Φ2.5mm~Φ5.0mm

These fabric tubes shrink when heat is applied. Pass a cable through a tube and apply hot air using an industrial hot-air gun to shrink the tube to fit the cable.

* Suitable for use with conductor wire without connectors and other cables of smaller diameter than the tubes
* Tubes shrink when hot air of from 90°C to 270°C is applied.

Magnetic Tape

A A 24

The back of the tape is magnetized, so labels can be attached to whiteboards, fridges, and other metallic surfaces.

*4 For use with model KL-G2 and KL-P350W

Fluorescent Tape

A A 18 12 9

These fluorescent colored tapes are great for producing labels with high visual impact.

Paper Tape

A 18 12 9

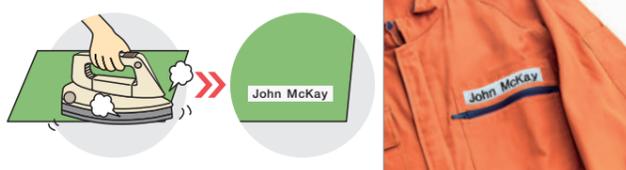

This is affordable paper tape. The tape surface is coated to increase print permanence. * Use indoors away from direct sunlight.

Iron-On Fabric Tape

A 12

This tape can be attached directly to fabrics using a clothes iron.
